

Since 9/11 and the Oklahoma Bombing incident, we must be aware of treasonous acts. Chairman Powell appears to be very, very close to that line by trying to give non-American Companies (like Fox News Corp) the ability to shape and misinform a higher percentage Americans. To provide these potentially dangerous Foreign organizations unfettered access and control, well above that of the average American, is an act of treason.

Foreign media outlets, like Rupert Murdoch's FOX News Corporation, (which does not pay American Corporate Taxes) should not be given full access to every media market and every media source (print, radio, TV). This allows these Foreign corporations to mis-inform, mis-lead and deceive the American public. Freedom of speech is not guaranteed to foreign corporations under our constitution. Individuals have freedom of speech. Corporations do not!

The decision to alter the rules, in effect, concentrating media power into the hands of the few ultra-conservative, ultra-rich works against democracy. Chairman Powell is corrupting the system and must be removed from his position of power. His treasonous acts must be prosecuted. He is using his position of appointed power to benefit the few at the expense of democracy. Chairman Powell is treasonous and must be stopped. Democracy can not flourish when the diversity of voices are silenced.
